5 **Introduction**

6 Work performed in laboratories at Iowa State University is a highly regulated activity. Iowa State
7 University must comply with various regulations including, but not limited to, those established by
8 the—

- 9 • Environmental Protection Agency (EPA),
- 10 • Occupational Safety and Health Administration (OSHA),
- 11 • State Fire Marshal,
- 12 • Iowa Department of Public Health (IDPH),
- 13 • U.S. Department of Agriculture (USDA), and
- 14 • Centers for Disease Control (CDC).

15 Each laboratory is governed by OSHA's 29 CFR 1910.1450, Occupational Exposures to Hazardous
16 Chemicals in Laboratories Standard (commonly known as the OSHA Lab Standard).

17 At Iowa State University, laboratories are defined as, but not limited to, any location where research
18 or teaching is conducted using hazardous chemicals, biohazardous or biological materials,
19 radioactive materials, radiation producing devices, and/or physical hazards.

20 **Policy Statement**

21 All personnel (faculty, staff, students, and visitors) who use laboratory facilities at Iowa State
22 University shall follow the procedures detailed in the ISU Laboratory Safety Manual. Successful
23 completion of appropriate safety training as specified in Safety Training Curriculum for Laboratory
24 Personnel is required prior to beginning work in a laboratory.
