6 Introduction

7 This policy addresses the presence and possession of animals on Iowa State University property,
8 including its buildings and grounds. This policy also explains the university's requirements and
9 guidelines regarding the use of service and emotional support animals.

10 ISU is committed to fostering an inclusive environment for all members of its community, including
11 individuals with disabilities who require service or emotional support animals. In order to support
12 individuals with disabilities and promote adherence to laws requiring accommodations for individuals
13 with disabilities, including the Americans with Disabilities Act Amendments Act, the Fair Housing Act,
14 and the Iowa Civil Rights Act, this policy and the accompanying procedures and guidance provides
15 information concerning the appropriate use of and procedures associated with service and emotional
16 support animals on university property.

17 Policy Statement

- 18 • **Buildings:** Animals are not allowed in Iowa State University ("ISU" or the "university")
19 controlled buildings subject to the specific policy exemptions detailed in this policy and
20 accompanying procedures and guidance.
- 21 • **Grounds:** Non-dangerous animals are generally permitted on ISU grounds but must be
22 attended to, physically restrained, and under the control of the owner/person responsible for
23 the animal at all times. Animals found running at large on university grounds, or unattended
24 and tied to a fixed object on university grounds, or unattended in university buildings may be
25 impounded and turned over to an appropriate university, city, or state agency.
- 26 • **Health and Safety:** Animals may be restricted from areas when and where their presence
27 presents a health, safety, or sanitation concern. Animals brought on university property must
28 be properly licensed and vaccinated under the laws of Iowa and evidence indicating such
29 license and vaccination must be presentable. The owner is responsible for the prompt
30 removal and proper disposal of any fecal matter or solid waste deposited by the animal.
- 31 • **Damage:** The owner is solely responsible for any damage to persons or property caused by
32 the animal. ISU may seek restitution from the owner for any animal related damage or costs.
- 33 • **Violations:** Violation of this policy may also result in the animal being barred from ISU
34 property, disciplinary action to the owner, and/or referral to appropriate law enforcement.
